Dear Hiring manager,

I was motivated to contact you upon learning that qcentum has an opening for a new Front End Developer. For several years I have focused my career path and academic pursuits on Information Science and completion of B.E program with MVJ College of engineering. My personal philosophy is rooted in empowering others and creating a positive perspective of life circumstances.

With a genuine and nurturing nature, combined with a professional and ambitious approach, I possess the primary skills needed in my field, including debugging, time estimation and usability testing. Additionally, collaboration and problem-solving are part of my skill set, with proficiency in planning. Experience in interacting with diverse populations has given me in-depth understanding and awareness of differences in both individuals and organizations. These qualities will contribute to qcentum's mission while positively highlighting the professionalism and competencies in its employees.

For further details of my qualifications, background, and academic history, please find my resume attached. I am confident that I can contribute positively to the Front End Developer role and I welcome the opportunity to speak with you at your earliest convenience.

Sincerely,

MOHAMMED NUMAAN KHAN
